Artificial Penetration Software Solutions Pvt. Ltd.

Human Resources Department

Employee Onboarding Guide
Version 1.0
Effective Date: 01 January 2025

1. Welcome

Welcome to Artificial Penetration Software Solutions Pvt. Ltd. This guide helps new employees understand the onboarding process, company expectations, available resources, and the first-week activities required for a successful start.

2. Before Your First Day

Employees should complete the joining formalities, submit required identity and educational documents, review the offer letter, and ensure access to the official email account before reporting.

3. Day One Activities

Meet the Human Resources team, collect the employee ID card, laptop, and access badge, complete orientation, review workplace policies, and meet your reporting manager and team members.

4. IT Setup

The IT team will configure the company laptop, official email, VPN access, collaboration tools, development environment, antivirus software, and required business applications. Employees should immediately change default passwords.

5. HR Orientation

HR explains company policies, attendance procedures, leave management, code of conduct, performance evaluation process, learning opportunities, employee benefits, and grievance procedures.

6. Department Induction

Each department introduces its projects, workflows, reporting structure, coding standards where applicable, communication channels, and expected responsibilities during the probation period.

7. Mandatory Training

Employees should complete information security awareness, workplace ethics, cyber security basics, health and safety, and organization-specific compliance training during the first month.

8. First Week Checklist

Complete workstation setup, join project meetings, understand assigned tasks, configure project repositories, review documentation, and schedule regular meetings with the reporting manager.

9. Probation and Performance

During probation, employees receive periodic feedback from managers. Performance is evaluated based on learning ability, technical competency, communication, teamwork, attendance, and completion of assigned work.

10. Employee Support

For HR issues contact the HR Department. For technical issues contact the IT Help Desk. For project-related questions contact the Reporting Manager or assigned mentor.
